KloudDisplay

Cloud Managed, Programmable Digital Display Solution

Transform your physical spaces into smart spaces using KloudDisplay, a cutting-edge solution to create intelligent, interactive realms. Seamlessly merge data-driven insights, computer vision AI and innovative display technology to create programmatic, interactive displays, kiosks, way finders, video walls, and digital signages.

→

Use Cases

Situation Aware Displays

Interactive displays that react to footfall, gestures, weather, face recognition, and any IoT sensor data.

Digital Menus & Signages

Remotely manage content for digital menu boards at restaurants, events, and exhibitions.

Internal Communication

Programmatically narrowcast and broadcast content. Useful in offices, call centers, factories, service centers, schools, hospitals, and parking lots.

Way finding

Interactive wayfinding solution to orient visitors and employees to the right direction and shortest path to their destination

Advertising Videowalls

Seamlessly merge multiple screens into a unified visually appealing large-screen format display, both indoor and outdoor.

Command Centers

Output multiple content dashboards and video feeds onto a multi-screen display. Integrate with any IT & OT systems to enable 24/7 monitoring & real-time data.

Kiosks

Create mesmerizing digital concierge services to elevate guest experiences in retail, hospitality, heathcare, events, airports, and public places.

FIDs and Timetables

Display management for flight schedules, and metro-rail with context driven rules engine and automatic updates.

Features

Screen Layout & Content Management

Screen Zoning	Layout Designer	Template Manager	Policy Engine	Campaign Scheduler
