

LISA USE CASE: HEALTHCARE

Augmented Intelligence for Healthcare Industry

In today's fast-paced world, clinics, hospitals, and healthcare facilities face increasing pressure to deliver high-quality patient care while optimizing operational efficiency, improving safety, and reducing costs. At the heart of this transformation is the need for Intelligent Spaces — spaces that are connected, responsive, and adaptive to the needs of healthcare professionals and patients alike.

The ultimate solution to creating intelligent healthcare spaces.

The LISA Platform, powered by Intel®, provides a comprehensive suite of IoT, data analytics, programmatic digital signage, Wi-Fi connectivity, wayfinding, and computer vision solutions. By integrating cutting-edge technology into healthcare environments, LISA enables clinics, hospitals, and healthcare facilities to deliver better patient care, streamline operations, and improve overall efficiency.

ENTRY & LOBBY

- Check-in / Revisit
- Guest Wi-Fi
- Digital Signage

ON- PREMISE

- Footfall & Heatmaps
- Attendance & Location
- Wayfinding & People Tracing
- Access Control
- Perimeter Security
- Teleconferencing with doctors
- Contact Tracing
- Guest Wi-Fi
- PPE Compliance
- Digital Signage
- BIM Integration, HVAC & Lighting Control
- Social Distancing
- Asset Tracking

ON EXIT

- Dwell Time Reports
- SMS Surveys
- Geo Fencing

Benefits

Improved Operational Efficiency

Enables automation and simplifies facility management, improves energy usage.

Improved Safety and Security

Robust security features through IoT, computer vision, and real-time monitoring.

Better Staff Efficiency and Workflows

Automating routine tasks, improving connectivity, and reduce administrative burdens.

Data-driven Decision Making

Use data from sensors, cameras and data systems to make informed decisions.

Kloudspot Solutions are Powered by 13th Generation Intel® Core™ i7 Processors and 4th Gen Intel® Xeon™ Processors.
